ERTECH 3000 SBC ASPHALT EMULSION BASE

ASPHALT EMULSION BASE

DESCRIPTION:

Ertech 3000 SBC is a non-fibered asphalt emulsion designed for use as a sizing emulsion and for further compounding into a variety of products. This product is formulated using a blend of asphalts and contains selected mineral fillers. Ertech 3000 SBC yields low VOC, is non-flammable and presents no hazards from open flame.

USES:

The primary applications for Ertech 3000 SBC are for use as a sizing emulsion in fiberboard manufacture and as a base material for further compounding into a variety of products.

TYPICAL PROPERTIES

Color	Black
Consistency	Fluid
Density, lbs/gal	8.6
Solids Content, % by Weight	60
Brookfield Viscosity @ 77° F.	650 cPs
pH at 77° F.	11.5
Sieve: 1000mL of product through a 20 mesh sieve	Nil
Resistance to Oils, Greases & Solvents	Poor
Volatile Organic Content (EPA 24 Method)	0.2 lbs/gal max
Storage Stability	Protect from freezing Slight agitation required at periodic intervals

SAFETY

Mixes and applications of this product present a number of hazards. Read and follow the hazard information, precautions and first aid directions on the individual product labels and material safety data sheets before using. While all statements, technical information, and recommendations contained herein are based on information our company believes to be reliable, nothing contained herein shall constitute any warranty, express or implied, with respect to the products and/or services described herein and any such warranties are expressly disclaimed. We recommend that the prospective purchaser or user independently determine the suitability of our product(s) for their intended use. No statement, information or recommendation with respect to our products,
